

Comments and Questionnaire

Phase I

please return with your results and a detailed report until October 31., 2000

to
Institut für Phtogrammetrie und Ingenieurvermessungen (IPI)
Universität Hannover,
Nienburger Str. 1;
D-30167 Hannover, Germany
Fax.: ++49-511-762-2483
email: wegmann@ipi.uni-hannover.de

OEEPE Test

Integrated sensor orientation

Test participant:

.....

.....

Software Product:

.....

Test Data:

Are you satisfied with the control point distribution:

yes no

If no, why ?:

.....

.....

.....

Have you used all control points for the misalignment determination ?

yes no

If no, please specify which control points were used in your report !

Have you made some internal tests with the data set ?

yes no

If yes, how ?:

.....

.....

.....

Would you prefer to determine the misalignment with the 200 Hz GPS/IMU data ?

yes no

If yes. why ?

.....

.....

.....

Have you determined the misalignment in the UTM or a local cartesian coordinate system ?

UTM local (or).....

Which additional data will be important for a more exact determination of the misalignment.?

1.)

2.)

3.)

Have you determined the focal length together with the misalignment ?

yes

no

If yes, the new value for the focal length :

..... [mm]

Additional remarks:

.....
.....
.....
.....
.....
.....
.....
.....

After having processed the phase I test data, do you have any comments regarding phase II:
